TESLA PREMIUM GUITAR & BASS REPLACEMENT PICKUPS & ACCESSORIES

RRP

VIBRATION DAMPER

\$ 9.95

SVD-1

The SVD-1 vibration damper is designed to prevent undesirable string noise between nut and machine head tuners which degrade pure tone quality. By installing this vibration damper in between the nut and machine heads (tuners) on your guitar you will enjoy a more pure string sound.

TESLA recommends the SVD-1 vibration damper to the guitarist or bassist who are seeking a more professional and clean sound without disturbing noises.

PICKUP BOOSTER PEDAL

\$ 199.95

MK-2

The TESLA PICKUP BOOSTER increases the output of a pickup. It has been manufactured to boost the sound of any pickup. The TESLA PICKUP BOOSTER can make a single coil pickup sound like a Humbucking pickup, and a Humbucking pickup sound like an Active pickup. When the output of a pickup is too small, or when a powerful drive tone or heavy distorted sound is needed, the TESLA PICKUP BOOSTER will allow the guitar player to gain the desired amount of drive input into their pedal board or amplifier. Rugged Diecast Aluminium casing.

ACTIVE PICKUP

RRP

AH-1N AH-1 Active Neck Pickup

\$129.95

AH-1B AH-1 Active Bridge Pickup

\$129.95

AH-1SET Set Comprising AH-1 Neck and Bridge Pickup in Display Box

\$ 229.95

The Tesla AH-1 pickup is an active humbucker powered by 9V battery. The AH-1 is designed to focus itself to achieve low noise, high power and is primarily for guitarists who want to get powerful crunch and clear middle tone.

PLASMA-1BB	PLASMA-1 Single Coil Bridge Pickup – Black	\$ 69.95
PLASMA-1BM	PLASMA-1 Single Coil Middle Pickup – Black	\$ 69.95
PLASMA-1BN	PLASMA-1 Single Coil Neck Pickup – Black	\$ 69.95
PLASMA-1BSET	Set Comprising PLASMA-1 Neck, Middle, and Bridge Pickup in Display Box – Black Colour	\$ 169.95

The Plasma-1 pickup has been created for the players who want blistering power from a single coil pickup. This pickup produces plenty of mid range and high end tones, retaining the tone of a single coil pickup. With a polyurethane coil and staggered Alnico 5 pole pieces, an even balance of tone is achieved.

PLASMA-2 Humbucker

PLASMA-2CB	PLASMA-2 Humbucker Bridge Pickup – Chrome	\$ 99.95
PLASMA-2CN	PLASMA-2 Humbucker Neck Pickup – Chrome Cover	\$ 99.95

PLASMA-2GN	PLASMA-2 Humbucker Neck Pickup – Gold Cover	\$ 99.95
PLASMA-2GSET	Set Comprising PLASMA-2 Neck and Bridge Pickup in Display Box – Gold Covers	\$ 179.95

If you are after a heavy sound, with hot and powerful tone, the Plasma-2 pickup is for you. With an unheard of 23kΩ direct current resistance, the Tesla Plasma-2 retains the integrity of upper end presence, a boosted mid-range, and an enhanced bottom. A polyurethane coil and bar type Alnico 5 magnets are used. Quiet when needed, the Plasma-2 is encased in a full metal jacket, and wax potted for excellence. The 4 wire leads allows you to custom wire it to your hearts desire. Made with a Nickel-Silver frame, American made plain enamel coated copper coil, wax potted, and standard four wire leads for endless tonal possibilities.

RRP

ELECTRIC GUITAR PICKUPS - PLASMA SERIES (CONTINUED)

PLASMA-71 7 String Humbucker (uncovered)

PLASMA-71B	PLASMA-71 Humbucker Bridge Pickup - Black	\$ 129.95
PLASMA-71N	PLASMA-71 Humbucker Neck Pickup - Black	\$ 129.95
PLASMA-71SET	Set Comprising PLASMA-71 Neck and Bridge Pickup in Display Box - Black	\$ 229.95

The Tesla PLASMA-71 is a humbucker pickup for 7-string electric guitars and it is available in neck and bridge configurations. The sound characteristics for the neck pickup are smooth, clean and the rear (bridge) pickup is ideal for a heavier, stronger distortion sound. The pickup is a good choice for metal, rock, trash or even funk guitarists.

PLASMA-RS1 Rail Humbucker

PLASMA-RS1B	PLASMA-RS1 Humbucker Bridge Pickup - Black	\$ 109.95
PLASMA-RS1M	PLASMA-RS1 Humbucker Middle Pickup - Black	\$ 109.95

PLASMA-RS1SET	Set Comprising PLASMA-RS1 Neck, Middle and Bridge Pickup in Display Box - Black	\$ 279.95

The Plasma-RS1 is the answer for those musicians who have single coil pickups, but demand a fuller, yet still clear tone.

The Rail-Humbucker design allows the installation of a humbucker without altering the single coil equipped guitar. The Tesla PLASMA RS-1 is presented as a cleaner, more precise option in the "rail humbucker" market. Utilising the most desirable components, the engineers at TESLA have taken a great idea and made it better. This full range pickup allows the user to achieve a natural balanced tone, even clarity and the high quality of sound that people have come to expect from TESLA. The Plasma-RS1 is available in neck, middle, and bridge positions balanced perfectly, and all have a 4 wire design for coil tapping, splitting, and other custom wiring. Tesla pickups are designed and tested by musicians, for musicians.

PLASMA FH-1 Humbucker (Uncovered)

PLASMA-FH1B	PLASMA-FH1 Humbucker Bridge Pickup – Black	\$ 139.95
PLASMA-FH1N	PLASMA-FH1 Humbucker Neck Pickup – Black	\$ 139.95
PLASMA-FH1SET	Set Comprising PLASMA-FH1 Neck and Bridge Pickup in Display Box – Black	\$ 249.95

This is one of Tesla's finest pickups. Extremely transparent and superb output make the Tesla AH-1 an ideal choice for the most discerning guitarist. This product is a passive humbucker pickup which is manufactured by using fibre bobbin and large pole piece. It is available in neck and bridge position configuration. The sound characteristics are full of attack and clear, so it would be a good choice for any jazz, funk or hard rock guitarist.

BANJO PICKUP

RRP

BP-1		\$ 99.95
-------------	--	----------

With an interest in Banjos, Tesla designed this piezo pickup that can be used in all types of banjos. In days gone by, the banjo was a prominent sophisticated instrument which was always louder than it's contemporaries. With amplification in later years, Banjo players have to stand next to a microphone, with unbalanced levels and tone. With the BP-1, the banjo player can wander the stage and dance a jig without the previous issues.

Mounted directly under the bridge, completely adjustable, the Piezo pickup will take the natural sound, and tone, directly to your audience or recording through amplification. Installation by a professional is recommended.

VR-1BN	VR-1 Single Coil Neck Pickup – Black	\$ 89.95
VR-1BSET	Set Comprising VR-1 Neck, Middle, and Bridge Pickup in Display Box – Black Colour	\$ 199.95

The VR1 is an exact replica of the 1950's Vintage single coil pickup. The VR1 pickups are carefully made with 42 AWG copper wire with Formvar insulation, Alnico 5 staggered pole piece magnets, fibre bobbins, wax potted, and vintage style cloth covered wire. The Middle position pickup has been reverse wound for noise cancelling at the second through fourth position. The bridge pickup has been specifically wound and calibrated for better tone balance.

VR-2 Vintage Humbucker

VR-2CB	VR-2 Humbucker Bridge Pickup – Chrome Cover	\$ 119.95

VR-60ClassicGSET	Set Comprising VR-60Classic Neck and Bridge Pickup in Display Box – Gold Covers	\$ 229.95

To take a classic pickup and change it is a risky endeavour, however Tesla have unlocked the secret. A careful look at the balance has created a pickup that has outdone its predecessor by exactly 1. Starting with an even tone foundation, whatever effects you add, this pickup will retain the clarity that is missed in stock pickups. Using only high quality components the Alnico 5 magnets wrapped with American made plain enamel coated copper coil, wax potted, encased in Nickel Silver frame and cover, cloth covered leads and braided shield the only thing missing is your talent, and in some cases, you won't even need that.

CORONA-B1B	CORONA-B1 Jazz Bass Bridge Pickup – Black	\$ 109.95
CORONA-B1N	CORONA-B1 Jazz Bass Neck Pickup – Black	\$ 109.95
CORONA-B1SET	Set Comprising CORONA-B1 Neck and Bridge Pickup in Display Box – Black Colour	\$ 189.95

The CORONA B-1 pickup has the traditional vintage sound of a single coil with a built in noise reduction system. It produces firm Punchy and Bright sound.

Tesla completely shield this pickup to reduce noise because single coil pickups are easily influenced by outside noise.

42 AWG Formvar coil with 8 'Alnico 5' magnets and fibre bobbins are used.

CORONA-B2 5 String Single Coil Jazz

CORONA-B2B	CORONA-B2 Jazz Bridge Pickup – Black	\$ 119.95
CORONA-B2N	CORONA-B2 Jazz Neck Pickup – Black	\$ 119.95
CORONA-B2SET	Set Comprising CORONA-B2 Jazz Neck and Bridge Pickup in Display Box – Black	\$ 199.95

Tesla designed this vintage 5-string Bass pickup to offer a traditional single coil sound for the 5-string bass player but without noise!

The Tesla Corona B-2 pickup is especially designed to reproduce low-end and mild high-end frequencies. It is completely shielded to reduce noise. 42 AWG Formvar coil with 10 'Alnico 5' magnets and fibre bobbins are used in the manufacture of the CORONA B-2.

CORONA B-3 Humbucker for Bass

CORONA-B3	CORONA-B3 Humbucker Pickup in Display Box – Black Colour	\$ 149.95
------------------	--	-----------

The Tesla CORONA B-3 is designed with a unique inner shape to pick up the constant input from different Bass guitar string positions and vibrations. It has excellent noise reduction characteristics.

Tesla uses 42 AWG Formvar coil with 26 'Alnico 5' magnets in this pickup to make the best balanced Humbucker possible.

The Tesla CORONA-76SM is a soapbar (EMG 40 or Bartolini M4 shape) pickup which is designed for 4 or 5 String Bass Guitars (Space between first and last strings should be within 76mm). It is especially designed for excellent noise reduction. This pickup divides into Neck Position and Bridge Position. It has Dual American Plain Enamel Copper Coil with 30 'Alnico 5' magnets. The 'Alnico 5' magnets are arranged into two lines and each line has 15 pole pieces (the resulting shape is like two side by side 76mm-length bars). It can be used with either 4 or 5 string bass guitars. The CORONA 76-SM pickup also has four conductor wiring that enables coil combinations (dual coil or split into single coil). You can get a wide variety of tones with this flexibility of switching. Available in Black Only
